EXPERIENCE

Senior Fullstack Developer (Typescript, Nest.JS, PostgreSQL, Redis, AWS)   **Sep 2025 - Present**
FastForward.IA
• Under NDA

Senior Fullstack Developer   **May 2023 - Jun 2025**
SSB International
• Optimized and maintained the company's web platform, improving performance, scalability, and security

• Refactored CRUD operations, implemented a reporting system and a role-based access control for 100+ users,
reducing errors by 30% and page load times by 40%.

• Applied business logic to the code, designed and coded entire modules from scratch and mentored developers with
less seniority.

Semi Senior Fullstack Developer   **Jun 2022 - Oct 202**
Anteojos Negros
• Developed an e-commerce platform for a ceramic and granite seller

• Designed the payment view and logic, improved the checkout system by integrating a local e-wallet API and price
calculation system, making transaction times 30% faster.

Semi Senior Fullstack Developer   **Jan 2022 - Jun 2022**
Contenidos Interactivos
• Built a human resources web app, optimizing employee management and attendance tracking

• Wrote unit tests and feature tests.

• Implemented the Google Geolocation API and webcam verification for employee check-in and check-out.

Junior Fullstack Developer   **Sep 2021 - Jan 2022**
SQL SYSTEMS
• Maintained and improved websites for private schools and learning institutions

• Refactored a legacy billing system, improved PDFs generation and email delivery for tuition invoices, reducing the
server load and cutting manual work by 80%.

Junior Fullstack Developer   **Nov 2019 - Sep 2021**
Eduger
• Developed and maintained websites for insurance companies, improving policy data accessibility and management.

• Integrated multiple APIs to enhance policy data accuracy, speeding policy issuance.

• Optimized frontend and backend performance, reducing page loading times.
