

JORGE JULIAN QUARTINO

Senior Software Engineer

jorgejquartino@gmail.com • Argentina • <https://www.linkedin.com/in/jjquartino/> • <https://github.com/JJQuartino/>

SUMMARY

I'm a Software Engineer with 6+ years of experience working for various industries, with a record of designing, shipping and taking ownership of end-to-end full stack features. Experienced in client-facing meetings and in collaborating with technical and non-technical teams to translate business requirements into scalable, maintainable code.

EXPERIENCE

Senior Software Engineer

Since - Mar 2026

ION Water

Kentucky - Remote

- Building backend systems processing IoT data from 100,000+ devices, developing APIs and data pipelines for high-scale ingestion and aggregation.
 - Working with data aggregation services handling hourly data ingestion from distributed sensors across water infrastructure networks.
- Typescript, Python/Django, Next.js, React, AWS, PostgreSQL.

Senior Fullstack Developer

Sep 2025 - Feb 2026

FastForward.AI

California - Remote

- Abbott: designed an API endpoint consumed across several countries for bulk coupon creation with batch validation, error handling and proper rollback; reduced AWS SES bounce rate by 50% via email validation, improving deliverability while preventing fraudulent redemptions resulting in \$100,000+ saved a month; built a WhatsApp automation flow from scratch using MessageBird for LATAM handling 1,000+ daily coupon operations.
- Hanes: developed a BI dashboard for aggregating data from thousands of stores across 3-year period, tracking revenue and fulfillment metrics. TypeScript, Node.js, NestJS, Next.js, React, PostgreSQL, AWS, RabbitMQ, Redis

Senior Fullstack Developer

May 2023 - Jun 2025

SSB International

Argentina

- Owned and shipped fullstack features for a customs brokerage platform serving international freight operations across Argentina and Brazil.
- Built a custom RBAC system from scratch with role and group-based filtering, with dynamically scoped dashboard queries
- Optimized queries, refactored code and used caching and pagination to reduce load times across several views.
- Mentored and guided other developers with less experience. Laravel, JavaScript, MySQL, AWS, Redis, Git

Semi Senior Fullstack Developer

Ene 2022 - Jun 2022

Anteojos Negros

Argentina

- Developed e-commerce features including a local e-wallet payment integration and checkout system improvements

Semi Senior Fullstack Developer

Jan 2022 - Jun 2022

Contenidos Interactivos

Argentina

- Built HR web app with attendance tracking, Google Geolocation API integration, and webcam verification for employee check-in/out.
- Laravel, Vue.js, MySQL, Git

Junior Fullstack Developer

Sep 2021 - Jan 2022

SQL SYSTEMS

Argentina

- Maintained school websites and refactored the legacy billing system, improving PDF invoice generation and email delivery. CodeIgniter, JS, MySQL, HTML/CSS.

Junior Fullstack Developer

Nov 2019 - Aug 2021

Eduger

Argentina

- Developed and maintained insurance company websites, integrating multiple APIs for policy data and optimizing frontend & backend performance. PHP, JS, MySQL, HTML/CSS

EDUCATION

Universidad Tecnológica Nacional

03/2022

Software Engineering

Argentina

SKILLS

Technical Skills: PHP (Laravel), JavaScript (Node, React, Next, Nest), MySQL, MongoDB, C# (.NET), Go, Python. Backend, frontend, problem solving skills, REST, API, AI, LLM, CI/CD, Git, AWS, S3, Cloudwatch, Vitest, Unit testing, integration testing.

Languages: English (Fluent), Japanese (Beginner), Portuguese (Beginner)
